Profile

Full Stack Developer with 3+ years of experience, fluent in the languages of the web (HTML, CSS, JavaScript), and a master of frameworks (React.js, Express.js). My passion lies in crafting beautiful and intuitive websites and applications that deliver outstanding user experience. I'm constantly learning and evolving, keeping pace with the ever-changing tech world (because let's face it, who wants to be a dinosaur?).

Professional Experience

Infosys BPM, Technology Support Specialist

Apr 2023 – present | Bengaluru, India

Client - Smart Automobile Ltd

- Architected scalable web applications with **React.js** and leveraged **Node.js** for efficient server-side interactions and **API integrations**.
- Led the modernization and maintenance of existing React applications, prioritizing user satisfaction through **bug fixes**, feature enhancements, and **performance improvements**.
- Owned the **deployment of React applications to production environments**, ensuring a smooth user experience and optimal performance.
- Contributed to a positive development environment by **conducting code reviews, sharing knowledge**, and fostering an environment that led to a 20% increase in team productivity.

Cognizant Technology Solutions, Programmer Analyst

Dec 2020 – Dec 2022 | Bengaluru, India

Client - VOYA Financial

- Developed and implemented **highly responsive user interface components using React.js**.
- Masterfully created an **automation utility**, optimizing processes and minimizing manual efforts, resulting in highly efficient and improved overall workflow by 30%.
- Amid a crucial production deployment, rendered **on-call assistance** to guarantee its seamless execution.
- Created and maintained accurate, comprehensive **confluence documentation** of all the details related to code.
