## PROFESSIONAL SUMMARY

Full Stack Developer with over 3 years of experience in front-end and back-end development. Expertise in HTML5, CSS3, and JavaScript (ES6+), coupled with practical experience in React.js and Express.js. Proficient in user interface design, and in designing and building responsive, mobile-first websites and applications. Skilled at optimizing application performance, ensuring cross-browser compatibility, and using webpack for efficient module bundling. Experienced with version control using Git, RESTful APIs, and agile development methodologies. Dedicated to enhancing user experiences and staying current with emerging technologies to drive innovation and efficiency.

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, TypeScript, HTML5, CSS3, ES6

**Frameworks/Libraries:** React.js, Node.js, Express.js, Redux Toolkit, React Router, Axios, Jest (Unit Testing), Tailwind CSS

**Tools & Platforms:** VS Code, NPM, GitHub, Postman, Thunderbolt, JIRA, Confluence, Git/GitHub (Version Control), ZOD (Data Validation), Webpack, Vite

**Cloud Services:** AWS Lambda, AWS Cognito, AWS DynamoDB, API Gateway, AWS S3

## PROFESSIONAL EXPERIENCE

**Infosys BPM, Software Engineer**

Apr 2023 – present | Bengaluru, India

### **Client - PoleStar**

- Engineered and deployed AWS services using the AWS CDK (Cloud Development Kit), reducing infrastructure management time by 40% and automating deployment processes.
- Implemented and managed order processing with AWS Lambda and API Gateway, resulting in a 30% improvement in order processing efficiency and integration.
- Configured and utilized AWS S3 for secure and scalable data storage, increasing asset retrieval speed by 50% and reducing storage costs by 20%.
- Integrated AWS DynamoDB for data storage, improving data access speeds by 35% through optimized data creation, retrieval, and filtering.

### **Client - Smart Automobile Ltd**

- Developed robust and scalable web applications with React.js, improving user experience by 15%, and utilized Node.js for efficient API integrations, cutting server response time by 20%.
- Led the modernization and maintenance of existing React applications, prioritizing user satisfaction through bug fixes, feature enhancements, and performance improvements.
- Owned the deployment of React applications to production environments, ensuring a smooth user experience and optimal performance.
- Contributed to a positive development environment by conducting code reviews, sharing knowledge, and fostering an environment that led to a 20% increase in team productivity.

**Cognizant Technology Solutions, Programmer Analyst**

Dec 2020 – Dec 2022 | Bengaluru, India

### **Client - VOYA Financial**

- Designed and implemented highly responsive user interface components using React.js, contributing to a 20% increase in user engagement and a 25% decrease in page load times.
- Developed an automation utility that optimized processes and reduced manual efforts by 50%, resulting in a 30% improvement in overall workflow efficiency.
- Provided on-call support during a crucial production deployment, ensuring a seamless execution with zero downtime and resolving issues 40% faster than the previous cycle.
- Authored and maintained comprehensive Confluence documentation, improving team access to code details and reducing onboarding time for new developers by 25%.

## EDUCATION

**Dr. Ambedkar Institute Of Technology,**

*B.E in Computer Science and Engineering*

*Graduated with a CGPA of 8.4*

Jun 2016 – Sep 2020 | Bengaluru, India

## CERTIFICATES

**Javascript Algorithms and Data Structures** 🏆

By Freecodecamp.org

**Javascript-Intermediate** 🏆

By HackerRank.com
